

**JAP AGREEMENT NOT  
PLIED TO UNITED STATES.**

CABLE AND ASSOCIATED PRESS.

Quoted in the Diet today whether the United States should be asked to join the alliance between Japan and the United States, Foreign Minister, in reply, said that, although a general agreement had been reached, the peace commission had agreed to regard the peace commission agreement as a general arbitration referred to the arbitration of 1911.

On the other hand, Japan had ever been interpreted as Article IV would be altered as a general arbitration referred to the arbitration of 1911.

It was pointed out in the negative, but said opinions were not being expressed, and that the consideration of diplomatic secrecy prevented public view.

It was asked if Great Britain considered herself exempt in the event of a Japanese-American war. Minister, in reply, said that, although a general agreement had been reached, the peace commission had agreed to regard the peace commission agreement as a general arbitration referred to the arbitration of 1911.

**WILSON TURNS  
DOWN UNIONS.**

(Continued from First Page.)

Chicago, Feb. 6.—As far as I am concerned, the board may be called on to decide all her off the matter high water in the how of the board and anything which has been placed within their jurisdiction by Congress, would be under and open to review.

**MANIFESTLY UNWISE.**

"It would be manifestly unwise for me, therefore, to take any action which would interfere with the orderly procedure of the Interstate Commerce Commission, or of the Railroad Labor Board, and all the matters mentioned in your telegram are within the jurisdiction of one or the other of these bodies, and their action, I think, may rest on confidence."

"It does not seem wise to comply with your suggestion that the matter be submitted to Congress, and the only action deemed necessary is to submit copies of the telegram to the Interstate Commerce Commission and to the Railroad Labor Board. This will be done."

The reply of the President is understood to have been based on recommendations of Secretary Payne, who still acts as Director General of the Railroad Administration.

**CYCLER IS GRATIFIED.**

(BY A. P. NIGHT WIRE.)

CHICAGO, Feb. 6.—Thomas D. Cuyler, chairman of the Association of Railway Executives, replied tonight to President Wilson's telegram by telegraphing him that the railroad men were gratified that he had seen fit to refer the question involved in the Interstate Commerce Commission and to the Railroad Labor Board.

Railroad labor union leaders forced comment on President Wilson's telegram until tomorrow.

**New Liquor Measure in Canada.**

(BY A. P. NIGHT WIRE.)

VICTORIA (B. C.), Feb. 6.—The chief feature of the fifteenth annual conference of the British Columbia Legislature, which opens here on Tuesday, is the introduction by the government of the new liquor measure to take the place of the present prohibition law.

**PARK IN WINTER  
ALLURING MANY.**

Yosemite in Snowy Covering Proves Drawing Card.

Directors Keep Prices Down and Pass Dividend.

Special Three-Day Tour is Planned This Season.

(EXCLUSIVE DISPATCH.)

SAN FRANCISCO, Feb. 6.—In expectation of the best travel year California ever has known, largely increased accommodations have been provided in Yosemite National Park, the first winter season has been inaugurated, and arrangements have been made for a standardized three-day tour of the little-known, remote sections of the public playground, according to the annual report of the Yosemite National Park Company, submitted to a recent meeting of the stockholders.

No dividends on the excellent 1920 season were authorized, rates for transportation and living accommodations at Yosemite Lodge and the company's nine other hotels, lodges and camps, having been kept purposely low, and the board of directors decided to retain in the treasury the small surplus profits earned on the \$2,000,000 invested. It was pointed out that the company was organized to develop Yosemite, not to exploit it, and that the first object of the organization was to make the park available to everybody.

**ALL HEADS RE-ELECTED.**

All officers and directors were re-elected. A. B. C. Dohrmann, San Francisco, is president; H. M. Haldeman, Los Angeles, and Alfred I. Eberg, San Francisco, vice-presidents, and George S. Nevin, San Francisco, secretary and treasurer. The directors are: J. H. Coverley, M. H. Whittier, Harry Chandler and Gen. M. H. Sherman, Los Angeles; I. I. Brown, Frederick J. Koster, R. P. Schwerin, John R. Drum, R. S. Shainwald, George R. Pryor, San Francisco, and four officers. Operating officials also were re-elected. T. S. Farrow, general manager; H. H. Hunkins, traffic manager, and F. C. Rivinius, controller.

Yosemite now offers the most varied accommodations of any national park in the United States. It is said. The hotel, lodges and camps of the Yosemite National Park Company include luxurious hotel suites, individual bungalow cabins with private baths, canvas cabins without baths, and housekeeping equipment for those who want to camp, while dining-room service ranges from elaborate course meals to cafeteria style. Officers of the company believe that the provision of accommodations to suit every taste and pocketbook is the biggest factor in making Yosemite universally popular, bringing thousands to California annually.

Improvements at Yosemite Lodge in Yosemite Valley include sixty-five new redwood bungalow cabins, all with private baths and electrically heated, and an open-air dancing pavilion. Sentinel Hotel has been electrically equipped throughout, including room heat and cooking.

**WINTER DRESS ALLURES.**

Special interest was shown in the report of Yosemite's first winter season, now in progress. Holiday crowds on New Year's exceeded the capacity of the Sentinel, many persons without reservations being unable to visit the park. A steady stream of visitors had poured into the valley at other times, eager to see Yosemite in winter dress and to enjoy horseback and other sports. The valley also has been a popular winter location for motion picture companies. One company even took horse to the top of Vernal Falls, spending two nights in tents to get some special scenes.

The three-day tour of Yosemite, to be offered the public this year for the first time, will make the Hetch Hetchy Valley and other remote beauty spots accessible to the casual visitor and prolong his stay in California.

The stockholders approved the "unlimited" policy of the Sentinel Hotel, by which the chef has free rein in providing good things for the guests. It was said that the Sentinel has the highest per capita consumption of cream, butter and eggs of any hotel on the Pacific Coast.

**SCHOOL CHILDREN  
ADVERTISE PRUNES.**

(BY A. P. NIGHT WIRE.)

PORTLAND (Or.) Feb. 6.—Douglas county is going to try a new device to get rid of its holdover prune crop. The school children of Roseburg are going to be the advertisers, with the city superintendent of education and Ray W. Clark as overseers.

The Douglas county youngsters will write to boys and girls in like grades in various American cities, telling them about Oregon prunes, said Clark.

**Plan "Model Air Route."**

(BY A. P. NIGHT WIRE.)

WASHINGTON, Feb. 6.—Plans for a "model airway" from Dayton, O., to Washington, were announced yesterday by the Army air service. Towns along the route have been called upon to provide landing fields and the service expects to equip them with surplus material and plot them on air charts, although it had no funds to spend on the fields.

**New York Has Fire Epidemic.**

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 6.—Ten fires occurring within two hours in an area half a mile square in the Bronx, resulted last night in a police roundup of suspicious persons in a search for incendiaries. Eight fires started in cellars and two in baby carriages in hallways.

**Convict Rich Man in Liquor Killing.**

(BY A. P. NIGHT WIRE.)

TUSCUMBIA (Ala.) Feb. 6.—The fourth conviction within a week on charges arising from the killing recently of Don Stephenson, prohibition enforcement agent, was returned last night by a jury when Will Holmes, a former deputy sheriff and wealthy land owner, was found guilty of murder in the first degree and sentenced to life imprisonment.

**Sleeping Sickness in Cleveland.**

(BY A. P. NIGHT WIRE.)

CLEVELAND, Feb. 6.—An increase in the number of cases of sleeping sickness here within two weeks from ten to eighteen, with nine deaths in January, was reported today by Dr. H. L. Rockwood, city health commissioner.

**Former Honduras President Dies.**

(BY CABLE AND ASSOCIATED PRESS.)

SAN SALVADOR, Feb. 6.—Don A. Membrillo, former president of Honduras, died in Tegucigalpa yesterday, according to advices here.

**BAY CITY MERCHANT  
RUNS AFOUL COURT.**

COMPELLED TO GIVE BOND IN NEW YORK TO OBEY ORDER REGARDING DAUGHTER.

(EXCLUSIVE DISPATCH.)

NEW YORK, Feb. 6.—An unusual proceeding was disclosed at Sheriff Knott's office when Samuel Sabchick, a wealthy merchant of San Francisco, was taken there and compelled to give bond of \$2000 to insure compliance with any order issued by the court in Brooklyn concerning the custody of his daughter, Beatrice Sabchick.

An order for his arrest had been obtained by his former wife, now Mrs. Jennie Cohen, because he refused to return their daughter to the jurisdiction of the New York court. Mrs. Cohen divorced Sabchick in 1912 and remarried in 1913. Her decree gave her the custody of their daughter, but she says that in July, 1918, a month before her second marriage, her former husband went to her home in Brooklyn and asked to be permitted to take their daughter with him to California, saying that he would bring her back on his next trip in January, 1920.

He failed to appear, and explained that it was because of the influenza epidemic, but assured the mother that the child would be brought back on next trip, in July.

Mrs. Cohen said she heard nothing more from Sabchick, and that Sabchick had absconded with the child's mind against her because she had no letter from her daughter for three months.

**STATES TO CONFER ON  
COAST ALIEN PROBLEM.**

MEETING OF WASHINGTON, OREGON AND IDAHO LEGISLATORS PLANNED.

(BY A. P. NIGHT WIRE.)

BOISE (Idaho) Feb. 6.—Legislative committees of Washington and Oregon were today invited by the unanimous vote of the Senate to meet with a committee from the Idaho Legislature at Boise to take up the alien problem affecting the Pacific Coast.

This action was taken at the suggestion of Gov. Olcott of Oregon, who telegraphed that the Oregon Legislature had passed a joint resolution asking that the conference be held at a convenient place between committees of legislative assemblies of the three States to investigate the alien population question. Lieutenant Gov. Willard appointed a committee of three to represent the Senate.

**BAY CITY AMNESIA  
VICTIM IDENTIFIED.**

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Feb. 6.—"H. K." alias John Ryan, mysterious amnesia victim released from the Oakland Emergency Hospital Friday, was identified from photographs as W. A. Crawford, formerly of Three Lakes, Wash., by D. W. Jenkins, Pacific Coast manager of Henry Dinstein and Sons, here yesterday. Jenkins said he knew the man twelve years and was "positive" of the identification.

Crawford left home March 26, according to Jenkins.

**ADMIRAL HUSE TAKES  
CHARGE IN NEW YORK.**

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 6.—Rear-Admiral Harry M. P. Huse yesterday assumed command of the Third Naval District, succeeding Rear-Admiral J. H. Glennon, who will retire February 11, after forty-seven years of service.

Admiral Glennon entered the Naval Academy in 1874. During the war he was in command of a naval division abroad. He later was transferred to the Pacific Coast and in charge of the thirteenth district at Seattle, coming to New York in April, 1919.

**Espee Shop on Five-Day Schedule.**

(BY A. P. NIGHT WIRE.)

ROSEBURG (Or.) Feb. 6.—As a result of the five-day-a-week schedule put into effect in this city yesterday by the Southern Pacific Company, 168 men from the repair shops and car departments will be laid off over Saturday and Sunday. This action will reduce the payroll here approximately \$1000 a week, it was said.

**Unless You Know  
—Your Skin Pays**

How often the outdoor girl or woman finds to her dismay that her skin pays for the lure of sport. Roughened, red, chapped hands and a harsh, peeling complexion are so often the price of tennis, hiking or motoring.

**The Secret**

But if you know the secret of many sportswomen, you may indulge your sport without having a white, smooth, satiny skin, free from weather blemishes.

Before you go out, apply SANTISEPTIC. Then you may forget the sun and wind, for your skin will remain clear, velvety and soft. This unusual medicinal toilet lotion is singularly healing and soothing. It has a pleasing, modified phenol odor which passes off as it dries. The invisible powder which clings to the skin protects it from the ravages of the outdoors.

**After the Game, too**

After the game or ride, SANTISEPTIC imparts a subtle freshness and gives a delicate feeling of cleanliness to the hands and face. A single application relieves the sting of sun or windburn.

SANTISEPTIC contains only ingredients approved by the U. S. Official Dispensary. It will not grow hair and is beneficial to the most delicate skin. Not sticky or greasy. Excellent for men after shaving, for chafes, blisters, poison oak or irritation. Your choice of Santiseptic in Unperfumed White, Perfumed White or Pink. The Birkel Co., Portland, Ore.

## LIKES AMERICAN HABITS.

Gilbert Chesterton Amazed That We Pay to Hear Him Lecture.

(EXCLUSIVE DISPATCH.)

NEW YORK, Feb. 6.—Gilbert S. Chesterton, the English essayist, who arrived in New York on January 19 to lecture upon topics of his own invention, returned to the city late yesterday from a speaking tour through Massachusetts. He looked thinner when he walked through the lobby of the Ellimore Hotel than he did when he stepped down the gang-  
plank onto the pier twenty-six days ago.

The most surprising thing to him in America, he said, was the fact that so many people had paid money to hear his lecture, even if it was a free one.

"I know fully well," he said, "that I would not turn out at night to hear myself lecture, even if it was a free one. One of the things that has impressed me most about the American people since my arrival in the country is their amiability, and I think it is one of their best qualities."

LIKES THE MEALS.

"How do you like the meals in America, and cooking in general?" he was asked.

"When I first arrived here, I ate a

not used to the temperature in time. There is one feature here that rather surprised me at first. That is the hundreds of men and women who walk through the big hotels and sit in the halls, although they are not stopping in the house. All this kind of thing, mixing the people together, tends to increase collectiveness and decrease individualism. Domesticity is on the wane more and more as people are breaking away from the old-fashioned idea of the home, which is the only place where men or women can really have individual liberty."

THE NEWSPAPERS.

"They contain an awful lot of news. The feature that has struck me in the New York newspapers is the great contrast between the startling headlines and the matter contained in the articles printed under them. It looks to me as if they were written by different persons."

Gilbert Chesterton said he did not think there was anything like the anti-British feeling among the people, that was described in certain newspapers.

"Politics and newspapers create the trouble between nations, while the people themselves are quite on

## Houseboat With Harding Party Makes Fast Time

(BY A. P. MIGHT WIRE.)

ORMOND BEACH (Fla.) Feb. 6.—The houseboat Victoria, bringing President-elect Harding back to St. Augustine, made up fast time today. When she stopped for the night she was about a day's sailing from her destination.

WASHINGTON, Feb. 6.—Mrs. Warren G. Harding returned tonight from her shopping tour in New York. She plans to remain three or four days before sailing Mr. Harding at St. Augustine, Fla.

## RANDALL QUILTS POST FOR VOTES.

Following Tons of Alibis Back Home.

Making Last Desperate Effort to Win.

Failure of Scheme Discourages Congressmen.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Feb. 6.—Charles H. Randall, who lost his seat as Representative in Congress from the Ninth District of California, is following home the tons of alibis that have been sent out to his district under government frank at government expense.

He left for his Highland Park home last night somewhat discouraged and entirely without enthusiasm. He had been during the day some of the farthest back in his home district of his attempt to claim credit for a lot of laws that never are and never will be.

CAREFUL RECKONING.

Careful reckoning of the official records at the Capitol today disclosed that none of the bills which he asserted he had introduced, many of which had since become law, had been acted on. The alibis in the Congressional Record of January 4, which Randall sent broadcast throughout his district with the assurance of a large force of special assistants, are now reacting and scores of letters are being received asking for the facts. To all the same answer must be given by the official keepers of the record. None of the bills of Randall have been acted on and therefore his claim to greatness all falls to the ground.

Hoping against hope that he could win in the special election caused by the death of Congressman Van de Water, Randall is now asserting that his opponent is a Democrat and that his family are all Democrats, that his mother lives with him and that she is a registered Democrat and that the whole family came from Texas and therefore must be Democrats. This indicates his desperation. Because of the complete failure of his alibi record to help him, Randall at the eleventh hour has decided to go home in a last attempt to pull victory out of almost certain defeat.

DESERTS HIS DUTY.

Just at the most critical time when every California interest needs unusual care and the strictest protection in the appropriation bills now up for passage, Randall deserts his duty here in order to fight for personal prestige and to maintain his position to retain his hold on public pay.

With his leaving last night, practically all of his largely augmented office staff have completed their energetic efforts to burden the mails with the franked alibis of the defeated Congressman. Knowing that he had utilized to the last penny the prerogative of free postage at the taxpayer's expense, Randall now goes to his district to spend the last week in a personal effort to avert disaster.

## MANY KILLED IN RIOT AT NITRATE PLANT.

THIRTY-SIX WORKMEN AND SIX CHILEAN SOLDIERS SHOT DURING CLASH.

(BY CABLE AND ASSOCIATED PRESS.)

SANTIAGO (Chile) Feb. 6.—Thirty-six workmen were killed in the clash with troops at the San Gregorio nitrate plant in Antofagasta province Thursday, according to advices published by El Mercurio.

The first reports placed the casualties at twenty-three soldiers, but made no mention of the workmen's loss. Later advices reduced the number of soldier dead to six, but there were varying reports today that the troops had suffered heavier losses. Many workers were wounded. Daniel Jones, administrator of the plant, was killed.

The workmen took possession of the plant after an encounter with the small garrison, but were driven out by reinforcements of troops who restored order.

## KAHN APPROVES VOTE FOR SMALLER ARMY.

CALIFORNIA CONGRESSMAN SAYS TAX BURDEN OF CURRENT MUST BE REDUCED.

(BY A. P. MIGHT WIRE.)

NEW YORK, Feb. 6.—Approval of the passage of the army enlistment joint resolution in the House over President Wilson's veto was expressed in a statement issued here last night by Representative Julius Kahn, California, chairman of the House Committee on Military Affairs.

He predicted the Senate would pass the resolution, but not by so large a majority.

"I have always been for preparedness," Representative Kahn said, "and I believe that the condition of affairs in this country warrants a cut of the enlisted force of the army to 175,000 men. If anything untoward should happen, the patriotism of this country could immediately bring to the colors of the United States a force that could handle any situation that might arise."

"The tax burden that is borne by the large portion of the population of the United States ought to be considered at this time. I am for relieving the taxpayers of my country and for that reason I am proud of the action taken by the House. President Wilson before the war was a pacifist. Now he is for preparedness."

(BY A. P. MIGHT WIRE.)

WASHINGTON, Feb. 6.—Enactments of the bills for Federal regulation of the coal and packing industries will be opposed by the Chamber of Commerce of the United States. J. H. DeForest, president, in announcing tonight the opening of the fight, declared that the two bills would substitute government for private control of great basic industries.

He also said the chamber would line up its 1400 member organizations and more than 15,000 firms, corporations and individuals to make its fight effective. He said copies of a brief prepared to point out the dangers contained in the bills would be sent to members of Congress tomorrow with a letter asking advanced consideration of arguments advanced against the measures.

Attention is called to the provisions in the live-stock bill for voluntary registration of packers, and the brief adds that the effects of the provision would be to force registration and later give the government control of the operation.

Last of Russian War at Home.

(BY A. P. MIGHT WIRE.)

WASHINGTON, Feb. 6.—The last of 710 Russian war resisters by the American Red Cross in Siberia have been restored to their relatives in Petrograd, having traveled around the world, meanwhile.

FAIL TO FIND  
CRIME FIEND.Double Efforts to Locate  
Pomona Murderer.Screams Frighten Would-be  
Holdup Artist.State Organization Elects New  
President.[EXCLUSIVE DISPATCH.]  
POMONA, Feb. 6.—All efforts of the local police to apprehend the Mexican, who is believed to have killed Uriah W. Switzer, when caught in the act of robbing his store at Pomona Junction early yesterday morning, have failed. Several men have been picked up and brought to police headquarters, but were released after they had been thoroughly grilling and satisfied the officers they had no connection with the crime. The police of neighboring cities have been furnished a description of the Mexican, who is believed to have committed the crime and are aiding in the search. Local citizens are endeavoring to raise a purse to be posted as a reward to assist in running down the robber-murderer, following the cold-blooded crime of yesterday when the aged proprietor of a store acted to protect his property from marauders. Pomona has been aroused to such a point that a vigilance committee is being organized. Dr. F. C. Switzer, commander of the local post of the American Legion, and Mayor W. A. Vandegrift are heading this committee, which will be composed of a score or more, mostly selected from experienced former service men. They will be armed with sawed-off shotguns and will cooperate with the local police in putting a stop to the orgy of crime that now seems to be rampant in all parts of Southern California.

HOLDUP FAILS.

As L. D. Wallenstein, prominent merchant, was about to enter his home at 375 East Alvarado street last night, he was surprised to feel the muzzle of a revolver pressed against his back with a command to hold up his hands.

His wife and daughter, who were with him at the time, realizing that a holdup was being perpetrated, screamed with such force that the robber was frightened away. Neighbors who heard the screams, came rushing to his assistance, but the thing made his escape.

HONOR-POMONA MAN.

According to word received here today, Charles F. Bayer, secretary of the Pomona Chamber of Commerce, was elected president of the California Association of Commercial Secretaries in convention at Oakland.

Mr. Bayer succeeds A. S. Dudley, assistant secretary of the Los Angeles Chamber of Commerce.

RUSHING BUSINESS  
LANDS MAN IN JAIL.BRUNK WITH A KICK ATTRACTS  
CROWD AND OFFICERS AT  
SAME TIME.[EXCLUSIVE DISPATCH.]  
LONG BEACH, Feb. 6.—In the third raid in less than two weeks, officers under the direction of Chief Ben W. McLendon today raided the "best" drink booth conducted by H. C. Wilson on the Silver Spray pier, confiscating several gallons of "uncutture of orange peel" and other home-mixed concoctions said to contain 94 per cent alcohol. The police were attracted to the

WILCOX stand by the long line of customers waiting for a glass of the warm wine, which the proprietor kept brewing on a gas stove. The heat, it is said, makes the "kick" more effective, and gives the consumer a quicker feeling of exhilaration. The crowded condition of the Wilcox booth, compared with the comparative desertion of the other concessions selling soft drinks, aroused the suspicions of the officers. It is declared.

Wilcox's beverages, fixtures and receipts for the day were all confiscated by the police and held as evidence. The till contained \$200, which, with oranges selling for 25 cents for a large pail, represented a huge profit, the officers declare.

CAPTAIN OF THE YALE  
GETS WAR DECORATION[LOCAL CORRESPONDENCE.]  
LOS ANGELES HARBOR, Feb. 6.—Capt. Richard C. Brennan, well known here as master of the steamer Yale, when that vessel plied into Los Angeles Harbor in the coastwise passenger trade, has been decorated by President Wilson with the Navy Cross with a citation. It was learned here today.

Capt. Brennan commanded the Yale for many months while the speedy ship plied through the war zone with American troops during the war. The citation mentions distinguished service rendered by Capt. Brennan from a number of agencies of the far-eastern agency of the Pacific Steamship Company.

The Yale is fast approaching the completion of her overhauling at the plant of the Los Angeles Shipbuilding and Dry Dock Company preparatory to being placed back in the coastwise passenger service.

MUSIC AN ASSET.

Santa Monica Mayor Says It Adds  
to Town's Prosperity.[LOCAL CORRESPONDENCE.]  
SANTA MONICA, Feb. 6.—Music adds greatly to the prosperity of a city. In the opinion of Santa Monica city officials, who spoke last night at the opening concert of the municipal band at Ocean Park.

More than 2000 people, including a number from out of town, heard the premier offering, and the address by Mayor S. L. Berkeley, who stated that Santa Monica has gained not only from the uplift of the annual music season, but that the band, because of its fine playing, brings material prosperity to the city.

Siguere Tommasino leads the band this year, with Louis Gaudin, manager. Because of popular demand the concert will be given in the auditorium instead of May as they heretofore.

ROBBED IN CHURCH.

Loser of Twelve Hundred Dollar  
Stud Has His Suspicion.

C. W. Freeman of 2096 West Thirty-first street told the police yesterday afternoon that when he went to the Philharmonic Auditorium to attend church services he had a diamond screw stud which he valued at \$1200, but when he came out it was gone. Freeman said he suspected two young men who sat near him. He gave the police their descriptions and said that he will give \$200 reward for the recovery of the jewel.

Chamberlain's Cough Remedy Aids  
Nature.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allows the cough, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its good qualities. Try it when you have a cough or cold.—[Advertisement.]

PREACHER OFFERS  
AID TO PROWLER.[EXCLUSIVE DISPATCH.]  
LONG BEACH, Feb. 6.—Rev. George P. Taubman, pastor of the First Christian Church, today offered to extend a helping hand to the burglar who rifled his desk in the office of the church of \$3 in stamps.

Said Dr. Taubman when he discovered the robbery: "Whoever did it must have needed money badly. I believe that the person who did it needs work and a helping hand. If the burglar will come to me I'll dig up a job, and I won't tell anyone about the act either."

"It wouldn't be fair to squeal on an unfortunate who needed sustenance so badly that he or she robbed a church's stamp box, and I certainly won't if they come to me for aid."

ENTERTAINMENT GOVERNOR.

VENICE, Feb. 6.—Gov. Stephens of California will be the guest of honor of the Santa Monica Bay Woman's Club next Saturday evening when they will give a dinner.

Later in the evening he will speak in the club auditorium, under the auspices of the public affairs section, on the corporation tax bill.

Mr. Frank J. Wagner, president of the club, and Mrs. Joseph Braun, chairman of the public affairs section, will officiate. Mrs. D. G. Stephens will introduce the speaker.

RECEIVED HEARD IN ALASKA.

Arthur A. Dodworth, well-known Pasadena clubman and violinist, has just returned from San Francisco, where a few days ago he gave a unique violin recital that was heard in Alaska, in British Columbia, Oregon, Washington and on ships at sea, all at the same time. The Pasadena played his instrument at the plant of the new wireless telegraph station just completed at the Fairmont Hotel, the highest point in San Francisco. Mr. Dod-

worth said the wireless telephone was proven a complete success, those at the receiving apparatus thousands of miles away complimenting him upon the tone of his violin.

SOUTH CHINA AWAKENING.

That the nationalism of China, in the southern part of the country, is awakening, is stated by Miss Hester Carter, 424 North Addison avenue, who has just returned from Shanghai, where she has been for a number of years as director of physical work in the Young Women's Christian Association there. She says the Chinese in South China are adopting a very vigorous policy against commercial and political aggressions in their country by the Japanese.

WILL GO EAST.

Carl E. Steele, one of the physical directors at the Pasadena Y.M.C.A., has resigned his position with the local association and will leave the coming week for Chicago, where he has accepted a position as physical director of the Chicago Latin School. Thomas Payne will succeed him in the position at the local Y.

Jade and amber pendants, necklaces, rings, ear drops, brooches, dangle hatpins and dancing bracelets, especially those with the fancy oriental braids, are the popular gems this season. One hundred and one beautiful new pieces have been added to Grace Nicholson's collection and are now on sale at reasonable prices at her Famous Oriental Shop, 46 N. Los Robles ave., Pasadena. Also new lot of pendants and charms in amethyst, agate, carnelian, coral, tourmaline and crystal.—[Advertisement.]

The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Tablets," writes Melard P. Craig, Middle Grove, N. Y. They work like a charm and do not gripe or leave any unpleasant effect.—[Advertisement.]

MERCHANT SEES  
GOOD BUSINESS.

Head of Marshall Field Company is an Optimist.

Violinist Plays to Big Audience by Wireless.

Crown City "Y" Man Takes Position at Chicago.

[LOCAL CORRESPONDENCE.]  
PASADENA, Feb. 6.—The slump in business in the East is now on the rebound and busy and prosperous times are now ahead for the country, said John G. Shedd of Chicago, president of Marshall Field & Co., upon his arrival here to take his annual winter vacation in Pasadena. Mr. Shedd has a fine home on South Orange Grove avenue.

Mr. Shedd said he was well satisfied that the business situation was improving and proposed to enjoy his winter's stay here to the fullest. Incidentally, he will play lots of golf. He is a member of the Midway club. Mr. Shedd is looking in much better health than when he was out here last season.

RECEIVED HEARD IN ALASKA.

Arthur A. Dodworth, well-known Pasadena clubman and violinist, has just returned from San Francisco, where a few days ago he gave a unique violin recital that was heard in Alaska, in British Columbia, Oregon, Washington and on ships at sea, all at the same time. The Pasadena played his instrument at the plant of the new wireless telegraph station just completed at the Fairmont Hotel, the highest point in San Francisco. Mr. Dod-

worth said the wireless telephone was proven a complete success, those at the receiving apparatus thousands of miles away complimenting him upon the tone of his violin.

SOUTH CHINA AWAKENING.

That the nationalism of China, in the southern part of the country, is awakening, is stated by Miss Hester Carter, 424 North Addison avenue, who has just returned from Shanghai, where she has been for a number of years as director of physical work in the Young Women's Christian Association there. She says the Chinese in South China are adopting a very vigorous policy against commercial and political aggressions in their country by the Japanese.

WILL GO EAST.

Carl E. Steele, one of the physical directors at the Pasadena Y.M.C.A., has resigned his position with the local association and will leave the coming week for Chicago, where he has accepted a position as physical director of the Chicago Latin School. Thomas Payne will succeed him in the position at the local Y.

Thousands See  
Air Benefit for  
Sick Soldiers.

More than 22,000 people witnessed the benefit given at Rogers Airport yesterday afternoon for the Disabled Veterans of the World War. A bout between Jack Dempsey and his sparring partner was a feature of the entertainment.

In spite of extremely unfavorable air conditions, resulting from a heavy wind and much dust, a number of daring airplane tricks were performed. Lieut. "Bob" Bartley's plane-change stunt, which was to have been the climax to the aerial part of the program, had to be given up on account of the wind, which when he went up was little less than a gale.

Among the most thrilling performers in the air were Lieut. Bartley, Mark Campbell, Kenneth Montee and F. M. Lund.

In the athletic events were: Boxing, Tommie Chapple vs. Al Boyd; George Sherman vs. Mike O'Leary; Frank Burns vs. Frankie Garcia; Phil Salvadore vs. Henry Gastline; Bert Collins vs. George Lavigne; Jack Dempsey vs. J. Tate. Wrestling: Kella Pasha vs. Hans Christiansen.

RETREAT FOR CATHOLIC MEN.

Under the auspices of the Knights of Columbus a spiritual retreat will be conducted for Catholic men of Los Angeles during the fourth week of Lent. The opening ceremony will be delivered at the cathedral on Wednesday evening, March 9, and the closing exercises will take place Sunday evening, March 13.

The Knights of Columbus will receive Holy Communion in a body at the cathedral the morning of March 13. Rev. Father Corr, chaplain of the Knights of Columbus and director of the Bureau of Catholic Charities, is in charge of the retreat.

Admits Binding  
Himself, Taking  
Company Money

Confessing after three hours' questioning by detectives that he bound his hands and feet with neckties and gagged himself with a towel in order to make it appear that he had been a victim of thieves, Benjamin Duncan Smith, a conductor for the Los Angeles Railway Company, of 437 South Broadway, yesterday afternoon was jailed on a charge of embezzlement.

Early yesterday morning Detective Thompson answered a telephone call from Smith in his room on Broadway, where Smith's brother said that he had come home at 2:30 a. m. and found the accused on the floor bound and gagged. Smith said when he left work Saturday night he had \$45 of the company's money in his pocket. He asserted that on going to his room he was hit on the head and knocked unconscious. When his brother found him he said he had been dreaming of being bound and gagged but had seen no one.

Later in the morning Smith appeared at the Detective Bureau to report that his room had been burglarized. Detective Vernard became suspicious and started an investigation. Detectives Simpson and England followed. For three hours Smith denied that it had been a frame-up, but when interrogated by Investigator Olney of the railway company, he gave in and turned over the money.

Preparedness.

One of our eminent and doubtless reliable statisticians announces that there is only one chance in 25,000 that one's house will ever burn down and yet we suppose lots of girls who would be much more comfortable in outing fannel nightgowns, are wearing their crepe de chine ones regularly on the possibility that it might.—[Ohio State Journal.]

THE WORLD'S  
BREAD-BASKET

It costs more to fill it now than it did a few years ago. All the more reason it should be filled with real food—the kind that supplies the greatest amount of body-building material at smallest cost. Shredded Wheat Biscuit is all food. It is 100 per cent whole wheat, contains more real nutriment than meat or eggs or potatoes and costs much less.

Two Biscuits with hot milk make a warm, nourishing meal and cost but a few cents. Delicious with fruits and fruit juices.

Pacific Coast Shredded Wheat Co., Oakland, Cal.

MOVE THEIR COTTAGE  
TO CO-OPERATIVE

LINDSAY GROWERS PLANT SHEDDER IS NOW HARBORING NIGHT AND DAY.

[EXCLUSIVE DISPATCH.]  
LINDSAY, Feb. 6.—The Lindsay Cotton Growers' Association have started moving their co-operative plant shed at Lindsay, according to O. Griffin, secretary of the association. The plant is now twenty-four hours per day and day out twenty-four hours per day.

This equipment is said to be the most complete in the state. The Lindsay plant shed is a twelve tubular steel tank for the process of extracting oil and is in order to get full market value out of the products, should prove out remain low.

Secretary Griffin says the Lindsay plant shed is a twelve tubular steel tank for the process of extracting oil and is in order to get full market value out of the products, should prove out remain low.

TO HEAR TAX  
PROS AND CONS.Rominger and Seavey to Meet  
on Same Platform.Former Hints at Camouflage  
in Governor's Drive.Says Issue is Not Gouging by  
State, but Saving.

For the first time since Gov. Stephens began his stupor tour of the State in the interests of his \$14,000,000 tax drive an opportunity will be given in Los Angeles today to hear both sides of the tax controversy presented from the same platform.

Senator Rominger of Long Beach, who led the fight in the State Senate on the King tax bill, and Clyde L. Seavey of the Board of Control at noon today will debate the tax question before the Woman's City Club.

Gov. Stephens has himself refused to discuss the merits of his tax measure, in all of his various addresses, confining his remarks to a general attack upon corporations of the State, and giving, it is pointed out, no opportunity for a reply to the same.

In the debate between Senator Rominger and Mr. Seavey, it is believed more of the real situation will be revealed than has yet been made apparent by either side.

**SEES RAY OF HOPE.**

A mass meeting of Los Angeles teachers will be addressed by Gov. Stephens in Trinity Auditorium at 4 p.m. today. Though disappointed, it is said, by the reaction of many of his auditors, it is understood Gov. Stephens anticipates a warm endorsement of his stand from the city teachers.

It seemed doubtful yesterday, however, that the teachers would formally go on record as favoring specifically the tax bill urged by the Governor and his advisers.

Provisions in the State Constitution clearly provide that educational funds must be paid from State moneys before any other disburse-

## ANNIVERSARY IS HONORED.

Services at Temple Baptist Church yesterday, both morning and evening, were largely in honor of Dr. J. Whitcomb Brounger's eleventh anniversary as pastor. Eleven years ago when Dr. Brounger was called to the White Temple, Portland, Ore., to succeed him. From the first, great congregations gathered in Temple Auditorium.

Yesterday morning the officers of the church occupied seats on the platform, and Dr. K. Edwards, one of the deacons, presided.

W. H. Fowler, who was a member when Dr. Brounger began his pastorate, reviewed the history of the church and called attention to its rapid growth.

Dr. W. F. Harper, general superintendent of the Southern California Baptist Convention, brought the message of Southern California Baptist Convention, Brounger and Temple Church was a source of inspiration to all the churches to undertake great things.

Dr. Brounger responded to the greetings and expressed his great pleasure in having had the privilege of being pastor of such a harmonious, happy, progressive church.

At night Daniel H. Jones, one of the trustees, presided and presented Dr. Brounger became pastor the membership of the church has grown from 1906 to 1916, the Bible school from 100 to one of the largest in the city and the one Christian Endeavor Society has developed into four, with about 500 members.

The contributions for home expenses have grown from \$3000 to \$11,000 a year. The church has increased from \$7000 a year to over \$15,000. The church now raises for all purposes, counting special contributions, over \$100,000 a year.

When the church was founded, the for in the budget are secured, the church will have four men and five women as paid assistants to the pastor. There are twenty-seven members of the church doing work on home and foreign missions fields.

Mayor Snyder commended Dr. Brounger's services. The existence of such provisions doubtless will prove an effective bar to any administration appeal to the teachers for support upon the grounds that failure to pass the tax bill may jeopardize the recent increase in teachers' salaries voted by the people.

The administration's day of hectic tax driving in Los Angeles will conclude tomorrow evening with an address by Gov. Stephens before Victory Post, American Legion. Numerous other meetings are scheduled in various parts of Southern California during the week.

Senator Rominger, who is prepared to debate with Mr. Seavey all phases of the tax issue, asserted yesterday that careful reading of the Governor's tax addresses has led him to believe that the administration speakers are deliberately evading the real issues involved.

**"APPEAL TO PREJUDICES."**

"When the Governor," he said, "stands up and says he is for fair equalization of taxes, his utterance sounds fine, but he means absolutely nothing about reducing the high cost of State government."

The purpose of the administration seems to be to camouflage the issue and appeal to the prejudices of the people by arraying the corporations' interests against the people's interests.

"Now, as I see it, the real question is not how may we equalize taxes upward, but how we may equalize them downward. The student facts and figures since I returned from Sacramento for the constitutional recess that I am absolutely convinced that we can go back and save a lot."

Brounger and his church for the active interest they take in all the affairs of the city's life which make for righteousness. He urged upon pastor and people to keep in touch with every problem the city had before it, and declared that it was through the help of such men as Dr. Brounger that good government is made possible in any great city.

Asst. Dist. Atty. Burton Fitts presented a petition to make kidnapping a capital offense, a crime punishable by death. The Mayor supported the petition and Dr. Brounger heartily endorsed it in his sermon on "Lawmakers and Lawbreakers." Among other things he said:

"Sad as it may seem, there are many people in every community who have become so hardened that neither intellectual nor moral appeals can reach them. You cannot deal with a tiger by moral reason. There are people with whom you cannot deal except with physical force. For the protection of the honor of woman and girl—the protection of virtue and life—some classes of criminals should be hanged."

"Cold-blooded, premeditated murder has always been regarded by the law as a capital offense. But there are some things more sacred than life itself. To kidnap a woman, to force her into prostitution, to force her into marriage, should be regarded as an offense as heinous as the taking of a life."

The strict enforcement of existing laws is necessary to put the fear of God in the souls of criminals. Criminals ought to understand that the probation law will be used only in certain classes of crimes. It ought not to apply even to kidnapping, for robbery, and those who are armed for taking life, while executing their crimes. The present California probation law is a disgrace to the State and should be amended so that it will apply only to men and women guilty of minor offenses."

While Mr. Aggeler declined yesterday to state officially that the motion for a new trial will be filed tomorrow, Richard C. Peete, the convicted woman's husband, indicated that this is the plan by stating that the motion, and an appeal, if necessary, will be made in an effort to save his wife from spending the rest of her life in prison.

The subject of a new trial will be taken up tomorrow morning," Mr. Aggeler said last night. "We will have a conference on this matter with Mrs. Peete and then decide what to do. The motion can be filed just before Mrs. Peete is called for sentence."

**HANDBALL STARS TO GET STIFF WORKOUT.**

Practice for the national handball championship to be held at Detroit the week of March 21-25 will start today at a noon luncheon Wednesday at the Los Angeles Athletic Club with a round-robin tourney as the feature.

A special court, a facsimile of those used at Detroit, has been built at the Athletic Club in order to get the local players accustomed to the difference in size. The Detroit courts are 20x40, whereas the local courts are 24x50.

The following players are entered in the round robin, the winners to be sent to Detroit: Max Gold, Bill Rans, Dick Retzer, Gene Haskell, Art Goodwin and Clarence Bean.

**ST. GEORGE SWAMPED.**

At Hazard Playgrounds yesterday afternoon the Sons of St. George Soccer Club was swamped by the United, 4 to 0. The Sons did not seem to get set and their usual combination effort was missing. For the winners Smith scored three, Mitchell two and Shepherd one. The game was spoiled to a great extent by the strong wind, which rendered scientific playing a hard task.

MRS. PEETE TO  
RISK HER ALL.Plans Motion for New Trial,  
Appeal if Necessary.Husband Undaunted; Wife  
Says "I Feel Pretty Well."Promise of Aid Comes as She  
Faces Life Jail Term.

Mrs. Lode L. Peete, convicted of the murder of Jacob Charles Denton, plans to risk her life for a chance of liberty.

The first move in her uphill fight for another trial, in which she again will face the danger of capital punishment in event of conviction, will be made in Judge Willis's court tomorrow when she appears there for sentence at 9:30 a.m. It will come in the form of a motion for a new trial, which will act to delay the passing of the sentence, fixed by the jury as life imprisonment, and will, in all probability, be filed with Judge Willis by setting Public Defender Aggeler and his deputies, Frederick H. Vercoe and Robert H. Scott.

The wonderful faith of Richard C. Peete in his wife remained unchanged by the verdict of the jury that found her guilty of the murder of Jacob Charles Denton.

Undaunted by the fact that the mother of his child now stands before the people of California as the murderer of a human being "beyond all reasonable doubt," Mr. Peete yesterday fixed his eyes on the future of his wife, and then decided what to do.

The motion can be filed just before Mrs. Peete is called for sentence."

**NO TECHNICAL GROUNDS?**

While there are a number of grounds on which a motion for a new trial may be made, attorneys in close touch with the case were inclined to believe that the technical grounds would not result in a victory for the defense, in view of the careful rulings by Judge Willis and the watchfulness of both sides in the trial to keep the record free from error.

The husband was the only visitor Mrs. Peete cared to see yesterday. "I feel pretty well," she said to those who asked how the verdict affected her, and her behavior was to the eyes of her cell-mates and jail attaches, no different than in weeks past. If thought of having to spend the rest of her life in the State prison brought any panic to her soul, she did not show it on the surface.

That Mr. Peete's faith in Mrs. Peete's innocence is shared by all employees stated. Messages of cheer, flowers and telephone conversations offering the best wishes were conveyed to Mrs. Peete from the outside world.

"One woman telephoned here that she was a person of means and that she had confidence in Mrs. Peete, saying she would call tomorrow and help Mrs. Peete to fight for another trial or engage attorneys in her behalf, if Mrs. Peete desired," another County Jail employee said.

**OREGON TAKES THE AGGIES INTO CAMP.**

**WHAT A SCORE!**

WALLA WALLA (Wash.) Feb. 6.—Battery A defeated Company A of Spokane in basketball last night, 117 to 5.

**DEDICATED BY LUTHERANS.**

Prominent Lutherans and members of other denominations participated yesterday in the dedication of the old California Hospital as the California Lutheran Hospital, it having been taken over by Lutherans February 1.

The Church Federation was represented by Dr. Hugh K. Walker, who spoke briefly of the new undertaking of the Lutherans. A. Larson, president of the board for the hospital, discussed plans for the future. Dr. Walter Lindley, long medical director of the California Hospital, also spoke.

Dr. W. R. Dralinger, the superintendent, read a communication from the matron's department of the County Jail. In the best privacy afforded by the gloomy, gray building, he and the convicted woman discussed their plans and hopes, while all around them other women, some of them convicted, like Mrs. Peete, and others awaiting trial, lived their own thoughts and plans and hopes.

**BELIEVED HER INNOCENT.**

Now, as before, Mr. Peete believes in the innocence of his wife. Whatever his thoughts may be about the evidence introduced by the State and held by the jury of twelve men to be conclusive proof of the guilt of Mrs. Peete, Richard C. Peete does not believe she killed Denton and pins his faith on Mrs. Peete's explanation that she was a victim of circumstances.

The husband was the only visitor Mrs. Peete cared to see yesterday. # Unusual Values IN Overstuffed Furniture

Figure prominently in Barker Bros'.  
Forty-First Annual Clearance

Barker Bros. have inaugurated a new policy in the manufacture of their overstuffed furniture.

Henceforth, ALL overstuffed sofas, chairs and rockers of Barker Bros.' own make will include the "web-bottom" construction feature. No more of this type of furniture will be made with "slat bottoms."

The discontinued patterns, consisting of approximately 75 articles (Davenport, Chairs and Rockers) are offered at reductions of One-Third.

The above feature, important as it is, is but a small portion of—  
Barker Bros.' Forty-First Annual Clearance, which presents compelling values in practically ALL LINES OF FURNITURE and other HOME FURNISHINGS.

Mrs. Kapp Lectures at Express This Afternoon  
"Light and Shade" will be the subject of a lecture to be given by Mrs. Henrietta Horton Kapp at the Los Angeles Evening Express building at 2 o'clock this afternoon.

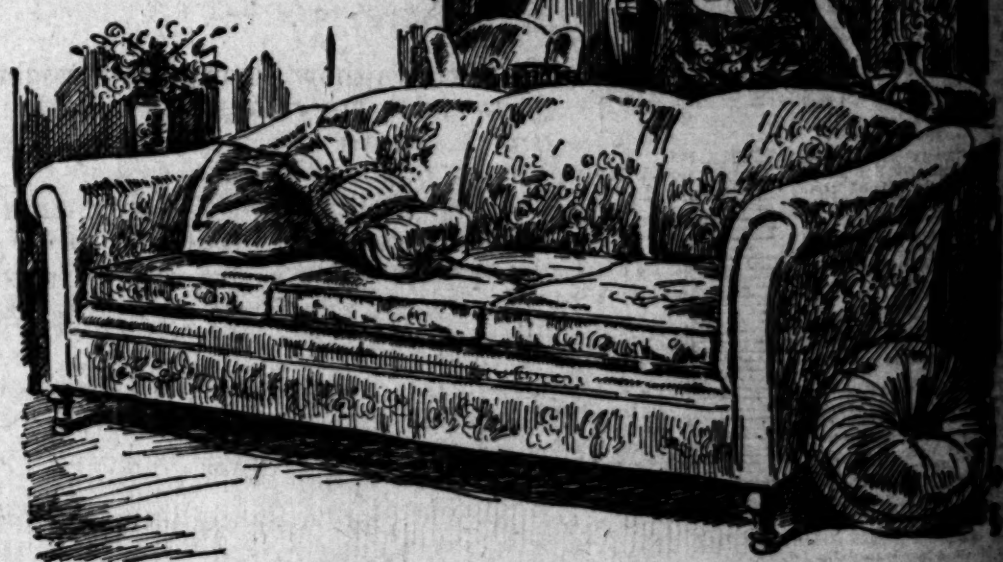

This will be the first of a course of lectures to be given by Mrs. Kapp, under the auspices of the Permanent Home Economics Exposition of the Express. The course will incorporate the principles of art in interior decorating.

Admission is Complimentary

33 Floors  
(In Five Connecting Buildings)

**Barker Bros**  
ESTABLISHED 1880

Broadway,  
Between Seventh and Eighth

This special event includes:—  
A Tapestry Davenport at \$82.50

It is a very rare occasion that offers the opportunity to purchase a Davenport of the quality of that shown in the above sketch at such an amazingly low price.

This davenport has a spring seat, a spring back and three loose spring cushions—in fact, all of the features that make overstuffed furniture alluringly comfortable. It is covered in a patterned tapestry, and, being numbered among the discontinued patterns, is offered at the special price of \$82.50.

There are, also:  
An overstuffed Wing Rocker, covered in tapestry at \$61.00  
An Overstuffed Rocker, covered in tapestry at \$46.50

A Davenport of good lines, covered in attractive mulberry figured velvet at \$107.50

These are only a few examples of the very exceptional advantages embraced in this offering.

The "Adobe Electrical Home"

Will Close to the Public Next Sunday

This is the last week that you will have the opportunity to visit the "Adobe Electrical Home" in Windsor Square. The hours are 2 to 10 p.m. daily.

## Financial, Business, Mining and Oil News

## RARE MINERALS, METALLURGY, CHEMISTRY.

You are politely requested to submit samples carefully wrapped and tagged, with letter accompanying stating what tests are desired. Minimum sample of small size. There is no necessity for big chunks. Correspondents offering matter for analysis should send a sample of mineral. Please show that the stuff is from Jim Jones, for instance, with no marks of identification on samples. Will, hereafter, receive no attention whatever.

## Hydrocarbon.

SANDY (Ariz.) Jan. 17.—Question: I am sending you under separate cover a sample of mineral. Please tell me what it is and its value?

W. A. N. Answer: The specimen is a white variety of hydrocarbon with a low melting point. It is on the order of hatchettite (mineral). It is a mixture of mineral, and, to determine which hydrocarbon it is, will call for a quantitative analysis. Such hydrocarbon is probably, of commercial value.

## Copper and Arsenic.

NOGALES (Ariz.) Jan. 17.—Q: These are what?

S. Answer: These consist of three chips of mineral. One of them carries traces of "yellow arsenic" (orpiment). One other specimen shows "red arsenic" (realgar). The third one of "these" runs fairly high in copper values.

## Four Samples.

VICKSBURG (Ariz.) Jan. 18.—Q: I am sending you today four samples of ore that came from the Vicksburg mining district. I think No. 1 carries some silver. No. 2—I am anxious to know if it is gypsum or fluor spar. Does No. 3 contain any witherite? No. 4 (the dark brown sample) may carry some gold. Thanking you in advance for any information you may give me in this line.

G. Answer: There is no native silver in No. 1; the sample is quartz, carrying microscopic polyhedral and micaceous iron. Here and there throughout the quartz microscopic pyrite occurs sparingly, with traces of arsenopyrite. No. 2 is a cellular and acicular substance carrying a mixture of gypsum with aragonite (lime carbonate). No. 3 is not witherite; it is rather low-grade barite. No. 4 is an ochreous and siliceous specimen with lime carbonate coating on one edge. Free gold not obtained in panning.

## Granular Magnetite.

GRUTTS, Jan. 19.—Q: These samples are submitted for tests as to what they contain. Please classify them also.

MIS. E. Answer: The samples are magnetic iron ore (magnetite).

## Iron Minerals.

BURBANK, Jan. 20.—Q: I am sending under separate cover a sample of rock from the mountain north of San Fernando. What does it contain, and is there silver in the sample?

A. Silver doubtful; for further information on the named metal you are respectfully referred to assayers. The sample, resembling one of the silver ores, contains flakey titaniferous iron ore and a like variety of hematite; microscopic pyrite and a like variety of arsenopyrite present in the altered rock.

## High in Gold.

MARKLEVILLE, Jan. 20.—Q: This sample is from the Advance mine adjoining the Curtz Consolidated mines in the Mammoth mining district. What is it and what does it contain?

C. It is a variety of talcose matter, white in color, and probably from a gouge. It contains approximately over \$100 free gold to the ton ore, with silver and lead present.

## Free Gold Trace.

VICTORVILLE, Jan. 21.—Q: Sample No. 1 is a piece of ore that is from thirty feet below the surface. What percentage of gold does it contain? No. 2 is a surface sample. Please classify it.

B. Answer: No. 1 is quartz carrying iron oxides pseudomorphic after pyrite. In panning we obtained one very small color of gold. The gold present is in very low percentage. No. 2 is a very much altered rock. The yellowish oxide is limonite; uranum absent. Zinc-lead traces in the specimen. The microscopic matter in the rock is not gold; it is of pyrite and mica.

## Vanadium and Tungsten Abundant.

LOS ANGELES, Jan. 21.—Q: I am enclosing you two different kinds

and samples of top-cap rocks from ledges in east end of Whipple Mountains. Sample No. 1, in red cloth wrapper. I hope, carries vanadium or scheelite. Sample No. 2, wrapped in paper, is from the same vicinity and carries white flakes of quartz smeared on seams with blackish mineral. I enclose you in advance to tell me what they carry.

W. Answer: The two large specimens are amygdaloidal rock from either the surface; this sample is your No. 1. On one edge of the specimen are microscopic quartz crystals; iron oxides and iron silicate, with copper a trace. There is altered material in No. 1 specimen, and part of the iron silicate is of a greenish color. The reactions for tungsten and vanadium were negative. The whitish chips of No. 1 are quartzitic rock stained with iron and manganese.

## High-Grade Silver Chloride.

LOS ANGELES, Jan. 22.—Q: This sample is from the Old Calico mining district.

A. And, the specimen is cerargyrite (hornsilver).

## Quite a Mixture.

KEENE, Jan. 22.—Q: I am sending you under separate cover a small piece of rock that I got a few days ago in the vicinity of Randburg. This rock came from a vein taken from just underneath the surface. Will you kindly advise me just what minerals this rock contains? I am anxious to know if it is a schist and granite formation. Do you think it would be able to go down? Thanking you for your favors.

H. Answer: It is not possible to advise you on what to expect out of the ledge. The rock contains sulfides, and from near the surface, it carries copper, chert, and it is made up of quartz, chert, and trace of forsterite as matrix. Microscopically and mineralogically, the sample is most interesting one. Further tested we find malachite, azurite, chert, auriferous, arsenopyrite, fahlerz, (tetrahedrite), traces of Melanconite and copper silicate. Silver is probably present. Not tested for gold.

## Chiefly Carbonates.

OCEANO, Jan. 23.—Q: A party of us are going to the coast to ascertain from you if the samples sent to you under separate cover today contain any mineral value.

A. No. 1 is impure dolomite (lime magnesians carbonates). No. 2 is on the order of No. 1, and the second No. 2 is impure limestone. No. 4 is a yellowish impure mixture of the carbonates named, with quite a percentage of strontium.

All of the samples carry traces of pyrite (iron disulfide) with micaceous and arsenical seams of arsenical pyrite. The specimens represent minerals of doubtful commercial value, and witherite (barium carbonate) is not present in any sample.

By further prospecting, witherite might be found near these formations, and barite (barium sulphate) is indicated.

## Eight Samples.

BARSTOW, Jan. 23.—Q: The white sample in a tin can is from a hot spring. I think it is a very pure lime carbonate with some magnesia. The black stuff may be manganese ore. The yellow stuff is probably cerargyrite (an oxide of antimony) and the black shining piece manganese silicate. You may name the other specimens. The old Tip Top mine has thousands of tons of ore in it, and it was near this mine.

On August 5, one hour before day break that big lion nearly scared me to death. I'm not over the scare yet. My big jack brayed terribly, rang his bell, and came running into camp, while not fifty yards behind him came the lion. The scream of the lion was the blood-curdling one that I ever heard.

W. Answer: That big jack practices the methods of our so-called reformers of the present day, and if he does not "loose out" a little, he will get him before he reaches the "Tip-Top."

The white sample in the can is chiefly lime carbonate with some magnesia and sulphates present. The flat white chip is Tufa. The two other whitish minerals (including the nodular sample) are clays; of doubtful value.

The greenish-yellow specimen is a mixture of altered chrysolite carrying antimony in low percentage with more or less amphibole. The three blackish samples contain iron, manganese, limonite and chormulite traces. The yellowish-red mineral reacts for iron with low per cent tungsten; iron present, and one sample (black) is of low-grade iron ore.

## The U. S. Geological Survey.

## AN APPRECIATION.

The editor of this department of The Times takes pleasure in publishing this appreciation of the many kindnesses extended to us for many years by Col. H. C. Rizer, chief clerk of the United States Geological Survey.

On Jan. 19, 1921, Col. Rizer sent letters to his troops of friends all over the world in which it is shown that someone had looked up the record and found that January 15 completed thirty-five years of the colonel's service with the Geological Survey. He received "a flood of letters, telegrams, flowers, candies, etc., and a stunning lunch."

In concluding his letter the colonel refers to the fact that he is growing old, and now—

"While in life's late afternoon, I walk to meet the night that soon shall shape and shadow overflow."

On behalf of The Times we extend our congratulations to Col. Rizer. He has ever been faithful to the many trusts confided in him, and to his untiring efforts, together with the known ability of the present director, Dr. George Otis Smith, the Geological Survey is internationally recognized as being the most truthful, and the greatest authority on mines, minerals, earths, ores and all known to the scientific world.

Col. Rizer, may you live to fill out a full half-century of work for the Survey! And remember that "A Roman was a youth at sixty years of age."

## New Year Stuff.

A scrappy New Year—eh?

Murder, murder everywhere—and not a clew to link.

The Ten Commandments seem to be off on a vacation. Or have they gone in search of the Fourteen Points?

The almost perfect Sunday about to bid adieu will permit of no murders and hold-ups only between the hours of 1 and 3 a.m. and 10 and 12 p.m. Burglaries are expected to quit work promptly at midnight on Saturday.

Tonight: We have with us tonight—

Chorus at tables: No, we haven't! (Life.)

## OIL MEN ACTIVE AT HUNTINGTON BEACH.

SEVERAL COMPANIES RUSHING WELLS AND MAKING PLANS TO ENLARGE HOLDINGS.

(SPECIAL CORRESPONDENCE.)

HUNTINGTON BEACH, Feb. 5.—Apparently it is the intention of the oil operators to make Huntington Beach equal to, if not superior, to any other oil field on the Pacific Slope. This is illustrated by the construction of fifty-one rigs to date during the last four months of the year. It is considered that the field is only one year old, the number is surprising. There have been no large reports there were 516 wells drilling in California, at the close of the year 1920.

Practically all of the fifty-one Huntington Beach wells were sunk during the last four months of the year. Some idea of the growth of the oil industry may be gathered from the fact that in 1919, there were only 341 wells drilling at the close of the year, an increase of 80 per cent for 1920. It is evident that an equal number of new derricks will go up next week so that the indications are the beach will become a formidable rival for first place.

The standing feature of the last week has been the drilling through the Del Mar Standard A-5 and the Republic Petroleum wells. These four should tell their story during the coming ten days. In the case of the Standard A-5, the indications are said to be excellent and the Del Mar was supposed to start their drilling of the cement this morning.

The Huntington Beach Petroleum Company, the Peerless Petroleum Company, J. T. Hurst and Associates, Petroleum Midway, and Bolsa Chico No. 2.

The lumber for Ventura No. 2 is being placed on the ground on a lease, half mile north of the Bolsa Chico No. 1. The Standard No. 1, known as the Surf well, is drilling through cement at 3600 feet and is reported to be getting light oil. A pipe line has been started to this well. The Union Newbury is close to the 4000 mark. The brown shale at this point seems to be carrying considerable sand, and therefore, the showings are declared to be much better.

The most recent acquisition in the development of the oil field of Huntington Beach, so far as activity is concerned, is the Huntington Crude Oil Company, composed of business men of Fullerton, Anaheim and Los Angeles.

The Huntington Crude Oil Company, composed of business men of Fullerton, Anaheim and Los Angeles, has received approval from a number of local mine executives. It is entirely automatic in operation and is expected to make a material reduction in the cost of handling ore and waste in the mines or for use in quarries.

Inspiration-Miami headquarters have been ordered moved from New York to Phoenix. The company is reported to have contracted for purchase of a large acreage of near-by mining ground to make Long Gulch.

Van Dyke, which is almost within the Miami town site, has resumed work on the 1500-foot level with a crosscut that is to penetrate the same dipping ore body passed between 1183 and 1218 feet of depth.

Iron Cap is working a single shift of eighty miners and will make extensive developments of its lower levels down to 1500 feet.

Over three hundred cars take you to the New Prospect Oil Field. Well No. 1 may come in next day. Phone 11008 for reservation.

## STOPPED FORCED SALE OF TEXAS OIL LANDS.

REPRESENTATIVE OF OWNERS LIVING IN ARIZONA GOES TO COURT.

(SPECIAL CORRESPONDENCE.)

JEROME (Ariz.) Feb. 4.—The Home Oil Company, a local corporation that has been operating in Texas, is bankrupt. This information was given at a stockholders' meeting by George Allen, who represented local interests in a late investigation. He found the property on the point of being sold, unknown to the Arizona stockholders, to satisfy a claim of the company's manager for \$11,000. In addition, there are general debts of about \$20,000. It also appears that the corporation has only 240 acres of land, not 1500, as had been understood.

Mr. Allen prevented the sale and managed the transfer of the action to the Federal court, which has appointed a receiver and which has ordered an audit of the books on Jan. 15. Allen's filing of a voluntary plea of bankruptcy. The assets of the corporation are a wide territory in the Deadeona district producing fifty barrels a day of high-grade oil, and a 600-foot hole in the Haskell country, where it had been announced the bore was down 1200 feet.

It now is proposed that the Arizona stockholders and creditors buy in the property at a receiver's sale and sink the Haskell well deeper, as it is in productive territory. A fight is being made on the claims of the former manager. The Home at one time had hopes of finding oil in the Del Rio section, west of Jerome, but switched to Texas several years ago.

## PERFECT RECORD FOR SAFETY AT DOMINION.

MANY DEPARTMENTS FILE UP GOOD POINTS; MUCKING DEVICE PATENTED.

(SPECIAL CORRESPONDENCE.)

GLOBE (Ariz.) Feb. 4.—A perfect safety record has been made by several departments of the Old Dominion mine and reduction plants during the past year. In the mine has been one death by accident, the first for three years.

Frederick Grisham and Emil E. Martinson, Globe miners, have received a patent for a mucking machine, which is a working model, has received approval from a number of local mine executives. It is entirely automatic in operation and is expected to make a material reduction in the cost of handling ore and waste in the mines or for use in quarries.

Inspiration-Miami headquarters have been ordered moved from New York to Phoenix. The company is reported to have contracted for purchase of a large acreage of near-by mining ground to make Long Gulch.

Van Dyke, which is almost within the Miami town site, has resumed work on the 1500-foot level with a crosscut that is to penetrate the same dipping ore body passed between 1183 and 1218 feet of depth.

Iron Cap is working a single shift of eighty miners and will make extensive developments of its lower levels down to 1500 feet.

Over three hundred cars take you to the New Prospect Oil Field. Well No. 1 may come in next day. Phone 11008 for reservation.

7% Apply This Safe Rule in Making Your Investments 7%

Ask yourself: How much is the actual realizable value of the security back of the investment, and would it show me a profit in actual money if it came into my possession by default in payment? Is the tangible security back of the investment of such a nature that I can determine its value at the time of the investment?

Apply this rule to 7% California Street Improvement Bonds. The security back of the bond is a parcel of land, a parcel of land which has been benefited by the improvement for which the bond was issued. You can determine the value of the land with the amount of the bond against it and know yourself whether or not the security is sufficient.

Our offering of 7% Street Improvement Bonds is carefully selected, and in every instance the value of the property is more than ample security for the amount of the bond against it.

picture stars. The cover design of  
this is a beautiful creation rep-  
resenting the "Spirit of Hollywood,"  
and is a genuine work of art.

It was painted especially for this  
program by Hernandez Villa, a cle-  
ver young Spanish artist who was  
selected by Cecil B. De Mille to  
originate and execute the main sub-  
titles for "Forbidden Fruit."

**McGowan in Person.**  
J. P. McGowan, who directed  
Frank Mayo in "Tiger True," now  
showing at the Superba Theater, has  
been secured by Noble Hearne for  
a personal appearance Wednesday  
night. The event will be McGowan's  
first personal appearance in con-  
nection with a photoplay of his di-  
recting, and the last, he says.

## FLASHES.

MOORE STEALS HOME.

SPEEDS TO COMEDY GOAL IN  
"HOLD YOUR HORSES."

By Grace Kingsley.

"Say, Jenny, I'm glad now that I didn't die that time." That's what a young man said kiddingly to his girl yesterday afternoon as the two left the California, where they'd just been looking at "Hold Your Horses." The picture, starring Tom Moore, had its opening yesterday. That's how I felt myself. Looks as if, while other folks were merely fooling around trying to make picture, Goldwyn had gone and done it. I don't know any other comedies equalling "Hold Your Horses," except "The Connecticut Yankee" and "Shoulder Arms."

"Hold Your Horses" is from Rupert Hughes' story, "Canavan," directed by E. Mason Hopper, and it's a regular comic right from the starting post. The subtitles, too, are snappy enough to be framed and hung on the wall.

Probably we've all wondered about the blighted lives of the "white wings" who clean the streets, but it took Rupert Hughes, with his genius for making a joke of life, his style as sparkling as champagne, to give us a comedy of poignant optimism with that humble calling as its basis.

"The streets were run over and at home he was walked over," is the way the author describes poor Canavan in a subtitle and it wasn't until our hero was hurt being knocked over by a carriage that he had any good fortune. The mark of a lucky horseshoe stamped on his breast, probably did the trick. He didn't have the courage to face the streets again, but he was a job with a dynamite crew, and began to feel his power.

The day the Irishman walked out with the cane and halted the traffic he sensed his power. Then he went home to his hussy, henpecked wife, and another subtitle says, "We'll save the censor some trouble here. It wasn't a pretty fight, but it was a good fight while it lasted."

From then on Canavan grows to the heights of goodness in New York, finally marrying the naughty lady, whose horse had stepped on his chest. There is a freshness, an originality, a springiness about the whole thing which is quite indescribable.

Moore steps right up onto a pedestal along with other first-class comedians, and his role affords him fine opportunity. His transition from the meek and lowly worm to the boss Irishman, with the uncanny and telling humor of the change, is done perhaps nobody else could do this. Naomi Childers is thoroughly satisfactory as the handsome and haughty lady Canavan's heart, and other parts are nicely played.

**"INSIDE THE CUP"**  
PLEASURES AT RIALTO.

It's quite sure to impress a large percentage of people, is the subtitle of "The Cup," which opened to packed houses at Grauman's Rialto yesterday. Winston Churchill's diatribe against hypocrisy may be ponderous and not profound, but it is impressive in its way. Besides it doesn't really hit at anybody, when you get right down to it, because there are no shades of Churchill's hypocrites. They rob the movie and ruin the girl, and haven't any redeeming trait.

Or if any of them have anything on their side, it isn't there. So you can see for yourself anybody will admit they're wicked.

As I said before, the picture will get a lot of people, because, after all, there's no indoor sports quite so fascinating as stepping on the other fellow's toes. When you think means we have a chance to show how good we are ourselves. Always then the hypocrite, you know, is always the other fellow.

Then there are the ladies, God bless them, who are to roll up their eyes in joy at sight of William P. Carleton playing John Hodder, the rector, with the light shining through the stained glass window on his handsome profile and beautiful hair.

As a film production, "The Inside of the Cup" presents Churchill's story of the bitterness of the poor against the rich hypocrites in the church very well. There is a little carelessness in direction at times, or perhaps it is only that the story is such a long one that had to be rather bewilderingly compressed in spots.

Edith Haller carries off the honors by her fine and sincere playing of Allison Farr, daughter of the king hypocrite, and Marguerite Clayton is a very lovely little ruined girl.

**MAYO IN STRONG-ARM  
ROLE AT THE SUPERBA.**

If you want to see a capital story, capably played, go down to the Superba and take a peep at Frank Mayo and Fritz Brunette in a film version of Max Brand's intriguing tale, "Tiger True." You'll have to hand it to Mayo, not only for the fact that he gives a colorful performance, planting a real characterization of a sporting youth who in order to get into the life takes a job as a bouncer in a tenderloin joint, but also because he takes no advantage of his good looks to pose, even playing without make-up.

What joy to see such acting as that of Miss Brunette, who gives us in the character of the dance-hall girl, not a frilly doll, nor yet a tough one, but a genuine person, wholesome plant growing out of the slime of her surroundings.

E. P. McGowan directed, and invested the story with many saving touches of humor. He also brings out the original story's thrills and suspense. There are several fresh twists, as when the girl of the underworld appeals to the hero's father to make the boy leave his bouncing job because he is in danger. Father replies, having read her aright, "Why don't you marry him?"

A mysterious character, full of interest and well played, is that of Baboon, who discloses himself at times as a dumb paralytic, thus gaining the confidence of the underworld folk and winning a power over them, which he uses in his crafty machinations. Walter Long portrays this role effectively.

There have been more convincingly human stories, perhaps, but none more masterfully played, and few more entertaining.

A comedy called "His Frightful Finish" furnishes the laughs.

**Mardi Gras Program.**  
Among the features that will distinguish the Mardi Gras Carnival and Valentine album of motion-  
picture stars. The cover design of  
this is a beautiful creation rep-  
resenting the "Spirit of Hollywood,"  
and is a genuine work of art.

## REVIEWS.

PHOTOGRAPHY PLEASES.

ANOTHER EXPERIMENT WITH  
A PINERO PLAY.

By Edwin Schallert.

If you are so inquisitive that you really have to know the "Truth About Husbands," you can find it out in six reels at the Kinema Theater, where the photoplay is being shown. The picture is a comedy of the almanac, where they go in for that sort of thing occasionally. The final subtitle of the picture is "The Truth About Husbands," and it is a comedy of the almanac, where they go in for that sort of thing occasionally.

**Helen Holmes in Thriller.**

Helen Holmes appears in a thrilling photoplay of railroad life, "The Man from Medicine Hat," at the Hippodrome. Included in the excitement is the blowing up of a locomotive, the burning of a town and a runaway train.

The vaudeville bill at the house is headed by the Georgalis Trio in spectacular feats of marksmanship. Mr. Georgalis includes among his novel feats a triple shot. He fires three guns simultaneously, breaking three separate objects with one arm and a magazine under the other.

Al Lester and partner offer breezy melodrama in "The Lighter Sisters," a play about a girl who is a runaway train.

Meanwhile, the action drags to the point of actual excitement. The old machinery of the auto accident, the final conventional understanding between husband and wife, preceded by the marriage of the distressed girl to the rich man, and with all the principals turning up in a foreign country to worry one another, creeps along on the worn axles through its attractive surroundings.

This feature is well cast with H. E. Herbert, Anna Lehr, May McAvoy, Richard Gordon, Arthur Rankin and others in important roles.

**WAGNER PROGRAM  
APPEALS TO PUBLIC.**

One is always sure of his audience for Wagner. Even without the stage spectacle the music of the master of tone drama and dramatized tone remains the artistic Mecca for the lover of beauty, whether he be poet, painter, musician or of the general public.

Such a program as Misha Guterson and the Gramman Orchestra presented yesterday morning was an especial appeal because of the breadth of its contrasts. One could only ask the "Good Friday" when the "Parafita" to have perfected completeness in a popular selection which contained excerpts from the "Rienzi," "The Flying Dutchman," "Lohengrin," "The Valkyrie" and "Tristan and Isolde."

For the interpretations this much can hardly be said. The dramatic fire was lacking, even in numbers which naturally played well, like the Introduction to the Third Act of "Lohengrin." This had a halting and, at times, lame rendition.

Vigor was evident in the overture to "The Flying Dutchman." The "Rienzi" overture stood out with brilliancy. But the "Love Death" from "Tristan and Isolde," labeled as the Prelude on the printed program, had gaps in its naturally-sublime continuity, and lost in the light and shade of greater contrasts.

**SERVICE POEM PLUS  
USUAL ALASKAN PLOT.**

Robert W. Service's poem, "The Law of the Yukon," provides the theme of Charles Miller's screen production of that name this week at Clune's Broadway. While "The Law of the Yukon" is little better than the usual run of Alaskan pictures at the same time it is certainly no worse.

The first half measures up to a much higher standard than the last half maintains. The elements of humor and tense action are essential to popularity, predominate to a great extent. Toward the end the tension weakens with interest lessening for the viewer. Only occasionally is one permitted to forget that he is witnessing a photoplay.

The law of the Yukon is the fundamental law of all places—the survival of the fittest. Or more nearly as Robert W. Service expressed it, the Yukon makes the strong stronger and the weak weaker.

The story concerns the trials in the north country of Morgan Kleach, a safe expert of "Outside," who has been imported into a small mining community to take charge of the official destinies of young weekly newspaper. In a fight during his first half-hour at the place, he gives the natives an idea of his physical powers by successfully beating the bully.

Various plots are contrived against him, but they all fail flat, and in the end, of course, our hero walks off with the heroine, after she has saved him from false accusations of the villain. And then they all live happily ever after (that is, all those who haven't been killed off in the course of natural events).

The bright light of the story, from a comedy standpoint, is in the story of the work of one of the others, some exceptional snow scenes. The photography, on the whole, is very good.

**"Isobel" in Second Week.**  
"Isobel," pictured from James Oliver Curwood's story, is showing
